

IIM Tiruchirappalli Signs MoU with TradingView to Strengthen Financial-Market Education

The Indian Institute of Management Tiruchirappalli (IIM Tiruchirappalli) has signed a Memorandum of Understanding (MoU) with TradingView, a leading global charting and financial-market analysis platform, marking a significant step towards strengthening experiential learning and market-oriented education for its students.

The collaboration reflects the Institute's continued commitment to integrating industry-relevant technologies into management education and equipping students with practical skills that complement classroom learning. By providing access to TradingView's advanced charting, screening, technical analysis, and market-monitoring tools, the partnership aims to enhance students' understanding of financial markets and support more application-oriented learning in finance.

Bridging Theory with Practice

As financial markets become increasingly data-driven and dynamic, developing practical analytical skills has become an essential component of management education. Through this collaboration, students will gain access to professional-grade tools widely used by investors, analysts, and market participants across the world.

The Institute seeks to provide students with greater exposure to real-world market environments while encouraging analytical thinking and informed decision-making.

Strengthening Industry-Oriented Learning

Speaking on the occasion, the key stakeholders emphasised that:

"This collaboration reflects our commitment to providing our students with contemporary, practice-oriented learning opportunities. Access to TradingView will enable students to analyse financial markets more effectively and apply theoretical concepts in a real-world setting."

— Dr. P. Saravanan, Professor of Finance, IIM Tiruchirappalli

"We are pleased to collaborate with IIM Tiruchirappalli in supporting the next generation of finance professionals. This partnership will help students build familiarity with market-analysis tools and strengthen their confidence in interpreting financial information."

— Mr. Vishal Soni, Growth Manager (India), TradingView

Enriching Finance Education

The MoU reinforces IIM Tiruchirappalli's continued efforts to integrate applied learning and industry partnerships into its academic programmes. By leveraging TradingView's technology, the Institute will further enrich academic courses and student-led initiatives focused on capital markets, investment analysis, and financial research.

Through its strategic partnership with [TradingView](#), the world's leading charting and market analysis platform, IILM University empowers AlphaEdge students with global-standard trading technology, advanced market analytics, and real-time financial intelligence. Students gain access to professional tools, including [interactive charts](#), the [economic calendar](#), and [crypto market data](#), enabling them to monitor key [economic events](#), analyze market movements, and make informed trading decisions. This immersive, industry-driven learning environment prepares the next generation of investment professionals with the technology and insights used by market participants worldwide.
